Question

How many users are expected for this service/product?

In what countries will this service/product be available?

What are the launch/rollout plans of the service/product?
In what languages will the data be needed in?
Are the movies/series mainly Italian/American/European?
Has the TMDB test API been accessed/tested yet?

Answer

Users that will be able to query your system to retreive metadata will be few, between 5 and 15

In Italy and Spain

Not defined yet, it could be possible to start in 2026, but we need a rough estimation of the costs for a generale pro
For sure it will be needed in Italian, Spanish and English, but the supplier is requested to specifiy at which condition
there are both local (italian and spanish) movies/series, but also movies from other countries (European, American,
yes, through our system integrator

ɔject approval

s further languages could be added

, Asian)
